## **Heart of Ohio Family Health Receives Whitehall-Bexley Rotary Grant**

**COLUMBUS, Ohio** — Heart of Family Health (HOFH) received a \$10,000 grant from Whitehall-Bexley Rotary to support nutritional literacy initiatives for at-risk and underserved families in the Whitehall school district. This includes development of resources and programs, through the creation of a comprehensive approach to nutrition education.

“We are grateful for the generous support of Whitehall-Bexley Rotary Club for the Heart of Ohio Family Health mission,” Chief Executive Officer Dr. Buhari Mohammed said. “We appreciate their commitment to help us ensure healthcare remains affordable and accessible for every Central Ohio resident.”

Whitehall is one of the most disadvantaged, underserved and high minority cities in Franklin County. The Whitehall community is federally designated as a Medically Underserved Population. Many residents struggle to find affordable healthcare in their area. However, HOFH works to provide services to all patients, regardless the ability to pay.

Collaborations with Whitehall-Bexley Rotary Club will help foster HOFH holistic approach to healthcare, and speaks to our dedication to advance health equity and addressing the social determinants of health.

“The main mission of the Whitehall-Bexley Rotary Club is to build peace and goodwill within the community that we serve. Our club is sponsoring a grant that would support the development of a nutritional literacy program for at-risk families in the Whitehall area, it was a no brainer,” stated Whitehall-Bexley Rotary Club President, Nathan Yolles. “Addressing this need in our community directly aligns with the core values of Rotary International and the Whitehall-Bexley Rotary Club. We were thrilled to have been able to help support this great organization and this great cause.”
