Heart of Ohio Family Health now offering immigration physicals

COLUMBUS, Ohio — Heart of Ohio Family Health (HOFH) now offers immigration physicals for those individuals and families applying for citizenship, or seeking a Permanent Residency or Green Card. All examinations will be performed by Jacqueline Nwando Olayiwola, MD, MPH, FAAFP, who is certified by the United States Citizenship and Immigration Services.

“HOFH is proud to work with Dr. Olayiwola to provide this service,” said Dr. M. Buhari Mohammed, CEO. “A medical examination is an important part of the evaluative process for those seeking a status change or citizenship in the United States.”

Dr. Olayiwola is Chief Health Equity Officer and Senior Vice President at Humana Inc. She also serves as an adjunct professor with The Ohio State University College of Medicine Department of Family and Community Medicine, and The Ohio State University College of Public Health.

Immigration medical examinations evaluate applicants’ health status and determine if any conditions exist that might preclude a change in status, and must be completed by a designated civil surgeon. Results are provided to an Immigration Officer and may be shared with health departments and other public health or cooperating medical authorities.

A typical immigration physical includes an examination, review of vaccine records, tuberculosis screening, STI testing and vaccine administration.

Appointments for an immigration physical can be made by calling 614.235.5555.
